THE BIO-CYBORG CHALLENGE...

It All Began...

... when Earth launched a united space force, the Imperial Earth Army, beyond the solar system. Eventually, this army formed a powerful dictatorship that used Bio-Cyborg machines to dominate and oppress society. But recently a group of freedom fighters broke loose and developed a method of capturing and controlling the Bio-Cyborgs. Now a battle for control of all humankind is blazing in space.

THE BATTLE PLAN

You will have to fight your way through five Bio-Cyborg crowded stages to free Earth from its oppression. In each stage a middle boss and final boss await you—they must be defeated before you can move on. You have to work through the stages in order, one through five.

NO POWER-UPS

When you are flying the Garland, you will not gain or lose power. To obtain special abilities, you must take control of a Bio-Cyborg unit. This is why you will not find any power-up items in BLAZEON.

CHOOSE YOUR CYBORG

The Freedom Fighters have learned how to HIJACK seven different kinds of Bio-Cyborgs. The fire-power of these machines varies depending on whether you are fighting with Normal Shots or the Bio-Cyborg's Special Attack.

The more enemy units you can destroy, the higher your score and the closer you get to eliminating the Imperial Army. Use Bio-Cyborgs against each other whenever possible,
FREEDOM FIGHTER WEAPONRY

The Garland is a small, harmless-looking spaceship. You get three Garland units. If you receive damage when you are in just the Garland, you lose one unit. The weapons available to you in the Garland are Normal Shot, to destroy an enemy, and Tranquilander, to control an enemy.

GARLAND TFF-01

NS | NORMAL SHOT
BEAM VULCAN
SA | SPECIAL ATTACK
TRANQUILANDER

TRANQUILANDER

To use the Tranquilander, you must be in just the Garland. Aim the Garland at an enemy with your Control Pad. Push the A or B Button to fire the Tranquilander at a Bio-Cyborg and stun it. Then take it over.

HIJACKING A BIO-CYBORG

You may need to fire the Tranquilander at an enemy several times before it freezes. Once it is stunned, move the Garland onto the Bio-Cyborg. The Garland disappears inside the enemy, and you are now in control.
The Garland is a recent development and not yet perfect—there are some Bio-Cyborgs you won’t be able to control. Listed below are the seven units you can hijack, and where you will find them. Since you can’t power-up the Garland, you will need to take over Bio-Cyborgs to get through difficult situations and defeat tough enemies.

### BARON
- **NS** Normal Shot
- **SA** Special Attack
- **SONIC GUN**
- **DIFFUSING BOMB**

### NEPTUNE
- **NS** Normal Shot
- **SA** Special Attack
- **WIDE LAZER**
- **HYPER BOMB**

### ODYSSEY
- **NS** Normal Shot
- **SA** Special Attack
- **FUNNEL**
MARS

- Normal Shot
- Mega Cannon
- Special Attack
- Atomic Shield

TITAN

- Normal Shot
- Slice Lazer
- Special Attack
- Homing Missile

HYPER D

- Normal Shot
- Beam Gun
- Special Attack
- Vertical Shield

SHADOW BLADE

- Normal Shot
- Twin Cannon
- Special Attack
- Dimension Field
The Controller

Control Pad

- Use the Control Pad to move the Garland or your Cyborg in eight different directions.

Start

- Press Start at the Title Screen to begin BLAZEON, or to pause during play.

Select

- Push Select to scroll through the three play levels on the Title Screen.

A & B Button

- When you are in the Garland, push A or B to fire the Tranquilander. In a Bio-Cyborg, press A or B to use the Special Attack (if your Cyborg has a Special Attack).

X Button

- To fire Normal Shots continuously, hold down the X Button.

L & R Button

- The L and R Buttons are not used in Blazeon.
BEGINNING

BLAZEON is for one player only. At the Title Screen, push the Select Button to scroll through the three levels: Normal, Hard, and Easy. When the level you want is on the screen, push Start to begin playing.

GAME SCREEN

Below is the usual Game Screen. When you are controlling a Bio-Cyborg, the number of Special Attacks it can make will appear. When a Boss approaches, his point value is displayed.

CONTINUE

Once you lose three Garlands, the game is over. The Continue Screen appears. To Continue, push Start before the numbers count down to 0 (zero). You will be put back at the beginning of your last stage in the Garland.
THE STAGES

The Imperial Earth Army has arranged five stages of defense in an effort to prevent Freedom Fighters from reaching Headquarters. Dozens of Bio-Cyborgs have been posted on each stage, and many traps block your path. Following are brief descriptions of the stages.

STAGE 1: BASE GITSUALL

Your goal on this first stage is to move forward until you reach the dock. Carefully enter the docking bay without hitting the walls. To defeat the boss, fire constantly.
SCORE SCREEN

After you successfully pass a stage, the Score Screen will appear. Your score is found by adding up the Boss Points, Shoot Down Points, and Perfect Points. After a few moments, you will move to the next stage.

BOSS + SHOOT DOWN + PERFECT

BOSS POINT

When a boss appears, its point value will be displayed on the screen. As time passes, this value decreases until you defeat the boss. Whatever number is showing when you win is how many boss points you earn.

SHOOT DOWN POINT

The Shoot Down Points are found by comparing the number of enemies you destroyed to the total number of enemies there were on that stage. So shoot down as many as possible.

PERFECT POINT

If you can defeat all of the enemies in a stage, you earn a bonus called Perfect Points. Perfection is hard to achieve, but worth the effort.
STAGE 2: CYBORG BATTLESHIP GUANO

On this stage, which is in space, you will be facing new types of Bio-Cyborgs. Experiment with controlling them. As you near the Battleship, you will be caught in heavy fighting.

STAGE 3: KALIMOA BASE

Now that you have reached the enemy base, watch out for laser cannons. To pass the barrier, destroy the pods at either end of it. If you can’t do that, pass through slowly.
STAGE 4: SHURICE BASE

Here in the dumping grounds, the fighting gets dirty. Enemy robots will leap up from the surface and attack you with missiles and laser beams. But you must get through.

STAGE 5: HEADQUARTERS-AMOS BASE

This stage moves at light-speed while you navigate through winding, narrow passages. If you hit a wall and lower your abilities, leave the Bio-Cyborg and get a new one.
HINTS FOR VICTORY

Winning this game requires you to study strategy and learn your enemy. Below are a few tips that will get you started, after that you’re on your own. You should be able to find other helpful tricks as you play.

KNOW THE BIO-CYBORGS

Since Freedom Fighters recently learned how to control the enemy, they have a lot to learn. Each of the Bio-Cyborgs has strengths and weaknesses. Use the early stages to practice with them so that you’ll know which Cyborg to use in whatever situation may arise.

BLUE LENS

The bosses at the end of each stage are large and very unfriendly. They seem invincible, but each one has a weak spot. Find the blue, lens-shaped mark on their bodies. This is where you should aim your fiercest attack. If you do, victory will soon follow.

MAGIC OF OVERLAP

Some of the Bio-Cyborgs are huge and you’ll find yourself running into walls and things. Don’t worry, though. When you just hit the legs and edges of a Cyborg, no damage occurs. Work at finding what your limits are so you can maneuver quickly in later stages.
90-DAY LIMITED WARRANTY ATLUS GAMEPAKS

Atlus Software, Inc. warrants to the original purchaser of this Atlus Software product that this game pak is free from defects in materials and workmanship for a period of ninety (90) days from the date of purchase. This Atlus Software product is sold “as is” without expressed or implied warranty of any kind, and Atlus Software is not liable for any losses or damages of any kind resulting from the use of this product. Atlus Software agrees for a period of ninety (90) days to either repair or replace, at its option, free of charge, the Atlus Software product. Send product postage paid, along with dated proof of purchase, to the address shown below.

This warranty shall not be applicable and shall be void if the defect in the Atlus Software product has arisen through abuse, unreasonable use, mistreatment or neglect. This warranty gives you specific rights, and you may also have other rights which vary from state to state.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer’s instructions, may cause interference to radio and television reception. It has been tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the SNES with respect to the receiver
- Move the SNES away from the receiver
- Plug the SNES into a different outlet so that the computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio or television technician for additional suggestions. The user may find the following document prepared by the Federal Communications Commission helpful: “How to Identify and Resolve Radio-TV Interference Problems.” This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402, Stock No. 004-000-00345-4.
